RECENT EXPERIENCE:

Director - Project Architect

Insulation Station, Dublin, Ireland: 2009 – Present

- Project Conservation Architect for a large 17th century historic private residence (9,200 sq.ft.), a €120,000 renovation and energy efficiency upgrade including works to an existing swimming pool.
- Project Conservation Architect for a 19th century historic private residence (3,000 sq.ft.), energy efficiency upgrade measures valued at €30,000.
- Project Architect for an extension and renovation of an existing private residence (1,800 sq.ft.), specific to improving energy and thermal efficiency, valued at €90,000.
- Consultations, energy assessments, reports and estimates for all clients, working closely with building owners to achieve high quality design and energy efficiency.

Project Architect – Designer

Cloonan O'Donnell Architects, Dublin, Ireland: 2007 – 2009

- Project Conservation Architect for an extensive €3.5 million gut renovation of an 18th century historic structure, (10,700 sq.ft.) for the Irish Police Headquarters, fast tracked.
- Design Architect for a large extension and renovation of an 18th century historic private residence (3,200 sq.ft.), closely liaising with the client and planning authority.
- Design Architect for an extension to an existing 18th century historic private residence (3,000 sq.ft.) and design of new mews house to the rear, including planning permit.
- Responsible for conceptual budgets, specifications, contract negotiations, liaison with relevant planning and building control authorities, contractors, engineers and estimators.

Project Architect – Designer

Irish Government Office of Public Works, Dublin, Ireland: 2004– 2007

- Project Architect for planning and construction of two new €1.2 million Irish Coast Guard Stations, (2,600 sq.ft.), involving two very different designs to match specific site conditions.
- Project Conservation Architect for design, estimating and planning for a site sensitive €6 million gut renovation of an 18th century historic courthouse, (19,300 sq.ft.).
- Design Architect for six new Coast Guard Stations at preliminary stages of planning, direct negotiations with local authorities and public consultation with local populations.
